Azure Synapse Link for SQL Server

- Intended as a near-realtime ETL replacement between SQL Server and Synapse Analytics
- New change feed capability reduces impact on OLTP workloads
- Restrictions apply ☺

Restrictions (some of them…)

- Data Types (no text, xml, udt, …)
- Can’t have MI Link or Replication
- Can’t use Add/drop/alter columns DDL on source
- Can’t truncate table or switch partitions on source
- …
